9
10 IN RE: Bard IVC Filters Products
11 Liability Litigation,

No. MDL 15-02641-PHX-DGC

12 **SUGGESTION OF REMAND AND**
13 **TRANSFER ORDER**
14

15 This multidistrict litigation proceeding (“MDL”) involves personal injury cases
16 brought against Defendants C. R. Bard, Inc. and Bard Peripheral Vascular, Inc.
17 (collectively, “Bard”). Bard manufactures and markets medical devices, including
18 inferior vena cava (“IVC”) filters. The MDL Plaintiffs have received implants of Bard
19 IVC filters and claim they are defective and have caused Plaintiffs to suffer serious injury
20 or death.

21 The MDL was transferred to this Court in August 2015 when 22 cases had been
22 filed. Doc. 1. More than 8,000 cases had been filed when the MDL closed to new cases
23 on May 31, 2019. Docs. 18079, 18128. Thousands of cases pending in the MDL have
24 settled in principle or are near settlement. *See* Docs. 16343, 19445, 19798-1, -2. The
25 remaining cases no longer benefit from centralized proceedings and are subject to remand
26 or transfer.

27 The cases listed on Schedule A, which were transferred to this MDL by the United
28 States Judicial Panel for Multidistrict Litigation (the “Panel”), should be remanded to the

1 transferor courts pursuant to 28 U.S.C. § 1407(a). The Court therefore provides this
 2 Suggestion of Remand to the Panel.¹ The cases listed on Schedule B, which were
 3 directly filed in this MDL, will be transferred to appropriate districts pursuant to
 4 28 U.S.C. § 1404(a).

5 To assist the courts that receive these cases, this order will describe events that
 6 have taken place in the MDL. A copy of this order, along with the case files and
 7 materials, will be available to courts after remand or transfer.

8 **I. Suggestion of Remand.**

9 **A. Remand Standard.**

10 The power to remand MDL cases rests solely with the Panel. 28 U.S.C. § 1407(a);
 11 *see Lexecon Inc. v. Milberg Weiss Bershad Hynes & Lerach*, 523 U.S. 26, 28 (1998).
 12 The Panel typically relies on the transferee court to suggest when remand should be
 13 ordered. J.P.M.L. Rule 10.1(b)(i); *see In re Motor Fuel Temperature Sales Practices*
 14 *Litig.*, No. 07-MD-1840-KHV, 2012 WL 1963350, at *1 (D. Kan. May 30, 2012).
 15 Indeed, the Panel “is reluctant to order a remand absent the suggestion of the transferee
 16 judge[.]” J.P.M.L. Rule 10.3(a); *see In re Regions Morgan Keegan Sec., Derivative &*
 17 *ERISA Litig.*, No. 2:09-md-2009-SHM, 2013 WL 5614285, at *2 (W.D. Tenn. Feb. 28,
 18 2013). The transferee court may suggest remand when cases are “ready for trial, or . . .
 19 would no longer benefit from inclusion in the coordinated or consolidated pretrial
 20 proceedings.” *In re Multi-Piece Rim Prods. Liab. Litig.*, 464 F. Supp. 969, 975 (J.P.M.L.
 21 1979); *see In re TMJ Implants Prods. Liab. Litig.*, 872 F. Supp. 1019, 1038 (D. Minn.
 22 1995).

23 **B. The Panel Should Remand the Cases Listed on Schedule A.**

24 The primary purposes of this MDL – coordinated pretrial discovery and resolution
 25 of common issues – have been fulfilled. All common fact and expert discovery has been
 26

27 ¹ The Court previously suggested the remand of ten “mature” cases that were
 28 nearly ready for trial when the MDL was formed. Doc. 12534.

1 completed. The Court has also resolved many *Daubert* motions and Defendants’
 2 summary judgment motion based on preemption, as well as other summary judgment and
 3 in limine motions in the bellwether cases. Three bellwether trials were held, and the
 4 parties prepared for a fourth that settled on the eve of trial. As noted, a settlement
 5 process is in place.

6 The MDL cases listed on Schedule A are not likely to settle soon and no longer
 7 benefit from centralized proceedings. The remaining case-specific issues in these cases
 8 are best left to the transferor courts to resolve. The Court therefore suggests that the
 9 Panel remand the cases on Schedule A to the transferor courts for further proceedings.
 10 *See In re TMJ Implants*, 872 F. Supp. at 1038 (suggesting remand of cases that no longer
 11 benefited from consolidated pretrial proceedings).

12 Defendants raise venue and personal jurisdiction objections in cases in which the
 13 transferor district is not where the filter at issue was implanted. *See* Docs. 19445 at 4-6,
 14 19445-4, 19798-3. The Court may not resolve venue issues in cases transferred by the
 15 Panel under § 1407(a). *See Lexecon*, 523 U.S. at 39; *Manual for Complex Litigation*,
 16 *Fourth*, § 20.132 n.666. And for reasons explained below, the Court finds that personal
 17 jurisdiction issues are best resolved by the transferor courts. Defendants’ right to
 18 challenge venue and personal jurisdiction upon remand is preserved.

19 **II. Transfer Under 28 U.S.C. § 1404(a).**

20 **A. Transfer Standard.**

21 Section 1404(a) provides that “[f]or the convenience of parties and witnesses, in
 22 the interest of justice, a district court may transfer any civil action to any other district or
 23 division where it might have been brought or to any district or division to which all
 24 parties have consented.”

25 **B. The Direct-Filed Cases Listed on Schedule B Will Be Transferred.**

26 Not all MDL cases were transferred to the Court by the Panel. Pursuant to Case
 27 Management Order No. 4 (“CMO 4”), many cases were filed directly in the MDL
 28 through use of a short form complaint. Doc. 363 at 3 (as amended by Docs. 1108, 1485).

1 Plaintiffs were required to identify in the short form complaint the district where venue
 2 would be proper absent direct filing in the MDL. *See id.* at 7. CMO 4 provides that,
 3 upon the MDL’s closure, each pending direct-filed case shall be transferred pursuant
 4 § 1404(a) to the district identified in the short form complaint. *Id.* at 3.

5 **1. Cases Where the Parties Agree to Venue.**

6 The parties have provided a list of the direct-filed cases in which they agree to the
 7 venue identified in the short form complaint. Doc. 19798-4. The parties also agree that
 8 certain other cases should be transferred to the venue where the plaintiff was implanted
 9 with the filter and not to the venue identified in the short form complaint. Doc. 19798-5.
 10 Pursuant to § 1404(a), the Court will transfer these cases to the agreed-upon districts. *See*
 11 *Lifeshouse Holdings, LLC v. Certain Underwriters at Lloyd’s London*, No. 13-CV-02161-
 12 LHK, 2013 WL 5754381, at *1 (N.D. Cal. Oct. 23, 2013) (transferring case where the
 13 “second prong of Section 1404 – consent – [was] satisfied”); *In re Biomet M2a Magnum*
 14 *Hip Implant Prods. Liab. Litig.*, No. 3:12-MD-2391, 2018 WL 7683307, at *1 (N.D. Ind.
 15 Sept. 6, 2018) (transferring cases under § 1404(a) where they would “no longer benefit
 16 from centralized proceedings[] and the remaining case-specific issues are best left to
 17 decision by the courts that will try the cases”).²

18 **2. Cases Where the Parties Disagree on Venue or Jurisdiction.**

19 CMO 4 provides that, prior to transfer, Defendants may object to the district
 20 specified in the short form complaint based on venue or personal jurisdiction. *Id.* at 4.
 21 Defendants have identified cases where they intend to raise venue or jurisdiction
 22 objections to Plaintiffs’ chosen forums. *See* Docs. 19445 at 6, 19454-1, 19798-5.
 23 Defendants do not oppose transfer of these cases to the forums chosen by Plaintiffs, but
 24
 25

26 ² In one direct-filed case, Plaintiffs identified no proper venue in their short form
 27 complaint. *See* Doc. 19798-12; Doc. 1, *Maietta v. C. R. Bard, Inc.*, No. CV-16-04125-
 28 PHX-DGC (Apr. 29, 2016). This case will be transferred to the Eastern District of
 Pennsylvania, the venue where the filter implant and alleged injuries occurred. *See id.*

1 seek to preserve their right to object to venue and personal jurisdiction upon transfer. *See*
2 Doc. 19445 at 3, 6; Doc 19798-5 at 1.

3 Plaintiffs oppose this approach, asserting that the resolution of venue and
4 jurisdictional challenges after transfer would be inefficient. Doc. 19445 at 3. But more
5 than a dozen cases involve potential venue or personal jurisdictional challenges. *See*
6 Doc. 19798-5. Resolving such disputes generally involves consideration of case-specific
7 factors, including the law for the forum. *See Jones v. GNC Franchising, Inc.*, 211 F.3d
8 495, 498 (9th Cir. 2000) (“A motion to transfer venue under § 1404(a) requires the court
9 to weigh multiple factors in its determination whether transfer is appropriate in a
10 particular case.”); *Calder v. Jones*, 465 U.S. 783, 788, (1984) (in judging the minimum
11 contacts required for personal jurisdiction, “a court properly focuses on ‘the relationship
12 among the defendant, the forum, and the litigation’”) (citation omitted). The best
13 approach is to transfer the cases to Plaintiffs’ chosen forum and allow the receiving
14 courts to address any potential venue and personal jurisdictional issues. Defendants’
15 right to object to venue and personal jurisdiction upon transfer is preserved.

16
17 Plaintiffs assert that, depending on the various state savings statutes, dismissal for
18 lack of personal jurisdiction after transfer could result in timely-filed cases being barred
19 from re-filing in an appropriate district based on the statute of limitations. Doc. 19445
20 at 3-4. But “[o]nce a district court determines that it lacks personal jurisdiction, it is
21 within its discretion to transfer the case to a court of proper jurisdiction and venue if it
22 finds that it is within the interests of justice to do so.” *Romero v. Cajun Stabilizing Boats,*
23 *Inc.*, No. CIV.A.G 05 483, 2006 WL 367871, at *4 (S.D. Tex. Feb. 14, 2006) (citing 28
24 U.S.C. §§ 1406(a), 1631); *see Dumitrescu v. DynCorp Int’l, LLC*, 257 F. Supp. 3d 13, 20
25 (D.D.C. 2017); *Goldlawr, Inc. v. Heiman*, 369 U.S. 463, 466 (1962). Plaintiffs are free to
26 argue in the receiving courts that the interests of justice favor transfer rather than
27 dismissal of any timely-filed case that would be barred from re-filing if dismissed. *See*
28 *In re Ski Train Fire In Kaprun, Austria on Nov. 11, 2000*, 257 F. Supp. 2d 717, 734-35

(S.D.N.Y. 2003) (“If this case is dismissed, . . . plaintiffs will be unable to establish jurisdiction in Colorado because they will be barred from refile in Colorado by the two year statute of limitations. To deny plaintiffs the opportunity to sue . . . defendants in a jurisdiction where they could have originally brought suit . . . solely because they selected the wrong forum at the outset of this case would be grossly unfair.”); *see also Manieri v. Layirison*, No. CIV. A. 98-501, 1998 WL 458186, at *3 n.3 (E.D. La. July 31, 1998) (noting that “[t]he curative effects of §§ 1404(a), 1406(a) and 1631 were intended to apply only in those circumstances where the action would have been timely filed in the transferee court at the time of filing in the transferor court”).

III. The MDL Proceedings.

A summary of the MDL proceedings to date is provided below to assist courts on remand, if ordered by the Panel, and courts receiving transfers under § 1404(a). CMOs, discovery orders, and other significant rulings are listed in Exhibit 1. The status of the remaining case-specific discovery and other pretrial issues for these cases, and the estimated time needed to resolve such issues and make the cases ready for trial, will be determined by the parties and reported to the district courts on remand or transfer.

A. Plaintiffs’ Claims and the Pleadings.

The IVC is a large vein that returns blood to the heart from the lower body. An IVC filter is a small device implanted in the IVC to catch blood clots before they reach the heart and lungs. This MDL involves multiple versions of Bard’s retrievable IVC filters – the Recovery, G2, G2X, Eclipse, Meridian, and Denali. These filters are umbrella-shaped devices that have multiple limbs fanning out from a cone-shaped head. The limbs consist of legs with hooks that attach to the IVC wall and curved arms to catch or break up blood clots. Each of these filters is a variation of its predecessor.³

³ In early 2019, Defendants moved to expand the scope of the MDL to include cases concerning Bard’s Simon Nitinol Filter (“SNF”), a permanent device that predated the other filters in this litigation. The Panel denied the motion as moot because more than 80 SNF cases already had been filed in the MDL. Most of the SNF cases are near settlement. Doc. 19547. The remaining cases are subject to remand or transfer and are

1 The MDL Plaintiffs allege that Bard filters are more dangerous than other IVC
2 filters because they have higher risks of tilting, perforating the IVC, or fracturing and
3 migrating to vital organs. Plaintiffs further allege that Bard failed to warn patients and
4 physicians about these higher risks. Defendants dispute these allegations, contending
5 that Bard filters are safe and effective, that their complication rates are low and
6 comparable to those of other IVC filters, and that the medical community is aware of the
7 risks associated with IVC filters.

8 CMO 2, entered October 30, 2015, required the creation of a master complaint, a
9 master answer, and templates of short-form complaints and answers. Doc. 249 at 6. The
10 master complaint and answer were filed December 12, 2015. Docs. 364, 366. They are
11 the operative pleadings for most of the cases in this MDL.

12 The master complaint gives notice, pursuant to Rule 8, of the allegations that
13 Plaintiffs assert generally. The master complaint asserts seventeen state law claims:
14 manufacturing defect (Counts I and V); failure to warn (Counts II and VII); design defect
15 (Counts III and IV); failure to recall (Count VI); misrepresentation (Counts VIII
16 and XII); negligence per se (Count IX); breach of warranty (Counts X and XI);
17 concealment (Count XIII); consumer fraud and deceptive trade practices (Count XIV);
18 loss of consortium (Count XV); and wrongful death and survival (Counts XVI and XVII).
19 Doc. 364 at 34-63. Plaintiffs seek both compensatory and punitive damages. *Id.* at 63.

20 Plaintiff-specific allegations are contained in individual short-form complaints or
21 certain complaints served on Defendants before the filing of the master complaint. *See*
22 Docs. 249, 363, 365. Plaintiffs also provided Defendants with profile forms and fact
23 sheets that describe their individual claims and conditions. *See* Doc. 365.

24 **B. Case Management Orders.**

25 The primary orders governing pretrial management of this MDL are a series
26 of CMOs, along with certain amendments. To date, the Court has issued 45 CMOs.

27
28 _____
included, as appropriate, on Schedules A and B. *See id.*; Doc. 19798-9.

1 These orders are discussed below and can be found on this District's website at
 2 <http://www.azd.uscourts.gov/case-info/bard>.

3 **C. Lead Counsel.**

4 CMO 1, entered October 30, 2015, appointed Co-Lead/Liaison Counsel for
 5 Plaintiffs ("Lead Counsel") to manage the litigation on behalf of Plaintiffs, and set out
 6 the responsibilities of Lead Counsel. Doc. 248. Plaintiffs' Lead Counsel has changed
 7 since the inception of the MDL. Mr. Ramon Lopez, of Lopez McHugh, LLP, in Newport
 8 Beach, California, and Mr. Mark O'Connor, of Beus Gilbert PLLC, in Phoenix, Arizona,
 9 are now Lead Counsel for Plaintiffs. Doc. 5285. Mr. Richard North of Nelson Mullins
 10 Riley & Scarborough, LLP, in Atlanta, Georgia, is Defendants' Lead Counsel.

11 **D. Plaintiffs' Steering Committee and Common Benefits Fund.**

12 CMO 1 directed the selection and appointment of a Plaintiffs' Steering Committee
 13 ("PSC") to assist in the coordination of pretrial activities and trial planning. Plaintiffs'
 14 Lead Counsel and the PSC together form the Plaintiffs' Leadership Counsel ("PLC").
 15 The PLC assists all Plaintiffs in the MDL by overseeing discovery, appearing in court,
 16 attending status conferences, and preparing motions and responses regarding case-wide
 17 discovery matters. CMO 1 has been amended to select and appoint a Plaintiffs'
 18 Executive Committee ("PEC") to assist Lead Counsel in the administration, organization,
 19 and strategic decisions of the PLC. Doc. 4016. The configuration of the PSC has
 20 changed during the course of the litigation. *See* Docs. 248, 4016, 5285.

21 CMO 6, entered December 18, 2015, set forth rules, policies, procedures, and
 22 guidelines for fees and expenses incurred by attorneys acting for the common benefit of
 23 all MDL Plaintiffs. Doc. 372. In May 2019, the Court increased the common benefit
 24 attorneys' fees assessment from 6% to 8%, but declined to increase the 3% assessment
 25 for costs. Doc. 18038.

26 **E. Status Conferences.**

27 Since the inception of the MDL, the Court has held regular status conferences with
 28 Lead Counsel for the parties to discuss issues related to the litigation. The initial case

1 management conference was held in October 2015. Doc. 246. Deadlines were set for,
2 among other things, the filing of master and short-form pleadings, profile forms, a
3 proposed protective order (including Rule 502 provisions), a proposed protocol
4 governing the production of electronically stored information (“ESI”), as well as
5 deadlines to complete first-phase MDL discovery and address privilege log issues.
6 Doc. 249. Thereafter, the Court held periodic status conferences to ensure that the parties
7 were on task and to address routine discovery issues and disputes. In addition to the
8 status conferences, the Court conducted telephone hearings to address time-sensitive
9 issues, as well as numerous additional conferences to consider various matters such as
10 dispositive motions and general case management issues.

11 **F. Discovery.**

12 **1. General Fact Discovery.**

13 Prior to the establishment of this MDL, Plaintiffs’ counsel had conducted
14 substantial common discovery against Bard concerning all aspects of Bard IVC filters,
15 including the design, testing, manufacturing, marketing, labeling, and post-market
16 surveillance of these devices. Bard produced numerous documents and ESI and
17 responded to thousands of written discovery requests, and more than 80 corporate witness
18 depositions were taken. The pre-MDL general fact discovery was made available by
19 Bard to all Plaintiffs in the MDL.

20 This MDL was formed to centralize all pretrial proceedings and complete all
21 common fact and expert discovery concerning Bard IVC filters. Doc. 1. CMO 8
22 established a procedure concerning re-deposing witnesses in the MDL. Doc. 519.
23 CMO 14 established deposition protocols generally. Doc. 2239. The Court allowed
24 additional depositions of a handful of corporate witnesses that had been previously
25 deposed, as well as numerous depositions of other Bard corporate witnesses, including
26 several Rule 30(b)(6) depositions. Docs. 3685, 4311. CMO 9 governed the production
27 of ESI and hard-copy documents. Doc. 1259.

1 Discovery in the MDL was separated into multiple phases. The parties completed
2 the first phase of MDL discovery in early 2016. Doc. 519. First-phase MDL discovery
3 included production of documents related to an FDA inspection and warning letter to
4 Bard, an updated production of complaint and adverse event files, and an updated version
5 of Bard's complaint database relating to IVC filters. Doc. 249. Plaintiffs also conducted
6 a Rule 30(b)(6) deposition concerning the FDA inspection and warning letter, and a
7 deposition of corporate witness Kay Fuller.

8 The parties completed the second phase of MDL fact discovery in February 2017.
9 CMO 8 set deadlines for the second phase, which included all common fact and
10 expert issues in the MDL, but not case-specific issues to be resolved after remand or
11 transfer. Docs. 249, 519. Second-phase discovery included extensive additional
12 discovery related to Bard's system architecture for ESI, Bard's ESI collection efforts, ESI
13 relating to Bard's IVC filters, and Bard's national and regional sales and marketing
14 practices. Plaintiffs also deposed two corporate witnesses in connection with Kay
15 Fuller's allegations that a submission to the FDA regarding the Recovery filter did not
16 bear her original signature. Doc. 1319 (CMO 10). Plaintiffs deposed additional corporate
17 witnesses concerning the FDA inspections and warning letter. *Id.*

18 Bard also produced discovery regarding the sales and marketing materials related
19 to the SNF, documents comparing filter performance and failure rates to the SNF, and
20 internal and regulatory communications relating to the SNF. Docs. 1319, 10489. The
21 Court denied Plaintiffs' request to obtain ESI discovery from Bard's overseas operations.
22 Doc. 3398. The Court denied Defendants' request to discover communications between
23 Plaintiffs' counsel and NBC news related to stories about the products at issue in this
24 litigation, and third-party financing that may be in place with respect to MDL Plaintiffs.
25 Docs. 3313, 3314. Plaintiffs were required to produce communications between
26 Plaintiffs and the FDA related to the FDA warning letter, but the Court denied
27 Defendants' request to depose Plaintiffs' counsel regarding these communications.
28

1 Docs. 3312, 4339. Defendants also produced punitive damages discovery, and Plaintiffs
2 conducted a Rule 30(b)(6) deposition related to Bard's net worth.

3 All common fact discovery in these cases has now been completed except for
4 preservation depositions for certain witnesses who will not be traveling to testify live at
5 the trials of remanded and transferred cases. The parties are engaged in the meet and
6 confer process as to these depositions and shall complete them by September 1, 2019.
7 *See* Doc. 16343 (CMO 43). Thus, courts receiving these cases need not be concerned
8 with facilitating general fact discovery on remand or transfer.

9 **2. Case-Specific Discovery.**

10 CMO 5 governed initial case-specific discovery and required the parties to
11 exchange abbreviated profile forms. Doc. 365 (as amended by Doc. 927). Plaintiffs were
12 required to provide Defendants with a Plaintiff profile form ("PPF") that described their
13 individual conditions and claims. *Id.* at 5-9. Upon receipt of a substantially complete
14 PPF, Defendants were required to provide the individual plaintiff with a Defendants'
15 profile form ("DPF") that disclosed information and documents concerning Defendants'
16 contacts and relationship with the plaintiff's physicians, tracking and reporting of the
17 plaintiff's claims, and certain manufacturing related information for the plaintiff's filter.
18 *Id.* at 12-14. Completed profile forms were considered interrogatory answers under
19 Rule 33 or responses to requests for production under Rule 34, and were governed by the
20 standards applicable to written discovery under Rules 26 through 37. *Id.* at 2-3. CMO 5
21 also set deadlines and procedures for resolving any purported deficiencies with the
22 parties' profile forms, and for dismissal of cases that did not provide substantially
23 completed profile forms. *Id.* at 2.⁴

24 Further discovery was conducted in a group of forty-eight cases ("Group 1")
25 selected for consideration in the bellwether trial process from the pool of cases filed and
26

27 ⁴ The Court has dismissed certain cases where Plaintiffs failed to provide a PPF.
28 Doc. 19874.

1 properly served on Defendants in the MDL as of April 1, 2016 (“Initial Plaintiff Pool”).
2 Docs. 1662, 3214, 4311 (CMOs 11, 15, 19). Plaintiffs in Group 1 were required to
3 provide Defendants with a Plaintiff fact sheet (“PFS”) that described their individual
4 conditions and claims in greater detail, and provided detailed disclosures concerning their
5 individual background, medical history, insurance, fact witnesses, prior claims, and
6 relevant documents and records authorizations. Docs. 1153-1, 1662 at 3.

7 Upon receipt of a PFS, Defendants were required to provide the individual
8 plaintiff with a Defendants fact sheet (“DFS”) that disclosed in greater detail information
9 concerning Defendants’ contacts and relationship with the plaintiff, plaintiff’s physicians,
10 or anyone on behalf of the plaintiff, Defendants’ tracking and reporting of the plaintiff’s
11 claims, sales and marketing information for the implanting facility, manufacturing
12 information for the plaintiff’s filter, and other relevant documents. Docs. 1153-2, 1662
13 at 3. Completed fact sheets were considered interrogatory answers under Rule 33 or
14 responses to requests for production under Rule 34, and were governed by the standards
15 applicable to written discovery under Rules 26 through 37. Doc. 1662 at 3. CMO 11 set
16 deadlines and procedures for resolving any purported deficiencies with the parties’ fact
17 sheets. *Id.* at 2, 4-5. CMO 12 governed records discovery for Group 1. Doc. 1663. The
18 parties agreed to use The Marker Group to collect medical, insurance, Medicare,
19 Medicaid, prescription, Social Security, workers’ compensation, and employment records
20 for individual plaintiffs from third-parties designated as custodians for such records in the
21 PFS. *Id.* at 1.

22 From Group 1, twelve cases were selected for further consideration as bellwether
23 cases (“Discovery Group 1”). Docs. 1662, 3685, 4311 (CMOs 11, 18, 19). CMO 20 set
24 deadlines for preliminary case-specific discovery in that group. Doc. 4335. Pursuant to
25 the protocols set in CMOs 14 and 21, the parties were permitted to depose Plaintiffs, a
26 spouse or significant family member of Plaintiffs, the implanting physician, an additional
27 treating physician, and either a Bard sales representative or supervisor. Docs. 2239, 4866
28 at 1-2. From Discovery Group 1, six Plaintiffs were selected for potential bellwether

1 trials and further case-specific discovery (“Bellwether Group 1”). Docs. 1662, 3685,
2 4311, 5770, 11659 (CMOs 11, 18, 19, 23, and 34).

3 Except for the forty-eight cases in Group 1, the parties did not conduct
4 case-specific fact discovery for the cases listed on Schedules A and B during the MDL
5 proceedings, other than exchanging abbreviated profile forms. The Court has concluded
6 that any additional case-specific discovery in these cases should await their remand or
7 transfer.

8 **3. Expert Discovery.**

9 CMO 8 governed expert disclosures and discovery. Doc. 519. The parties
10 designated general experts in all MDL cases and case-specific experts in individual
11 bellwether cases. General expert discovery closed July 14, 2017. Doc. 3685 (CMO 18).
12 The parties did not conduct case-specific expert discovery for the cases listed on
13 Schedules A and B during the MDL proceedings. The Court has concluded that case-
14 specific expert discovery in these cases should await their remand or transfer.

15 **4. Privileged Materials.**

16 CMO 2 required Defendants to produce privilege logs in compliance with the
17 Federal Rules of Civil Procedure. Doc. 249. The parties were then required to engage in
18 an informal privilege log meet and confer process to resolve any privilege disputes.
19 Defendants produced several privilege logs identifying documents withheld pursuant to
20 the attorney-client privilege, the work-product doctrine, and other privileges. The parties
21 regularly met and conferred regarding the privilege logs and engaged in negotiations
22 regarding certain entries identified by Plaintiffs. As part of that meet and confer process,
23 Defendants provided Plaintiffs with a small number of these identified items for
24 inspection and, in some cases, withdrew certain claims of attorney-client privilege and
25 produced the previously withheld items.

26 CMO 3 governed the non-waiver of any privilege or work-product protection in
27 this MDL, pursuant to Federal Rule of Evidence 502(d), by Defendants’ disclosure or
28

1 production of documents on its privilege logs as part of the meet and confer process.
2 Doc. 314.

3 In late 2015, Plaintiffs challenged a substantial number of documents on
4 Defendants' privilege log. The parties engaged in an extensive meet and confer process,
5 and Defendants produced certain documents pursuant to the Rule 502(d) order. *See id.*
6 Plaintiffs moved to compel production of 133 disputed documents. The Court granted
7 the motion in part. Doc. 2813. The parties identified several categories of disputed
8 documents and provided sample documents for in camera review. The Court denied
9 Plaintiffs' motion with respect to seven of eight categories of documents and found only
10 one of the sample documents in one of the categories to contain unprivileged portions
11 that should be produced. The Court found all other documents protected by the attorney-
12 client privilege or work product doctrine. The Court directed the parties to use this ruling
13 as a guide to resolve remaining privilege disputes.

14 Since this ruling, there have been no further challenges to Defendants' privilege
15 logs. Defendants continued to provide updated privilege logs throughout the discovery
16 process, and the parties met and conferred to resolve privilege disputes. Privilege issues
17 should not be a concern for courts that receive these cases.

18 **5. Protective Order and Confidentiality.**

19 A stipulated protective order governing the designation, handling, use, and
20 disclosure of confidential discovery materials was entered in November 2015. Doc. 269.
21 CMO 7, entered January 5, 2016, governed redactions of material from additional
22 adverse event reports, complaint files, and related documents in accordance with the
23 Health Insurance Portability Act of 1996 ("HIPAA") and under 21 C.F.R. § 20.63(f).
24 Doc. 401.

25 In September 2016, to expedite production of ESI, the parties agreed to a primarily
26 "no-eyes-on" document production as to relevancy while still performing a privilege
27 review for this expedited ESI document production. CMO 17 (Doc. 3372) modified the
28 protections and requirements in the stipulated protective order (Doc. 269) and CMO 7

(Doc. 401) for ESI produced pursuant to this process. CMO 17 was amended in November 2016. Doc. 4015.

Defendants filed a motion to seal certain trial exhibits at the conclusion of the first bellwether trial. Doc. 11010. The Court denied this motion and Defendants' subsequent motion for reconsideration. Docs. 11642, 11766, 12069. Defendants also filed a motion to enforce the protective order for the second and third bellwether trials collectively. Doc. 13126. This motion was denied. Doc. 14446. A list of exhibits admitted at the bellwether trials (excluding case-specific medical records) and documents deemed no longer subject to the protective order are attached as Exhibit 2.

G. Bellwether Cases and Trials.

Six Plaintiffs were selected for bellwether trials. Docs. 5770, 11659 (CMOs 23, 34). The Court held three bellwether trials: *Booker v. C. R. Bard, Inc.*, No. CV-16-00474, *Jones v. C. R. Bard, Inc.*, No. CV-16-00782, and *Hyde v. C. R. Bard, Inc.*, No. CV-16-00893. The Court granted summary judgment in one of the six bellwether cases, *Kruse v. C. R. Bard, Inc.*, No. CV-15-01634, and removed another from the bellwether trial schedule at the request of Plaintiffs, *Mulkey v. C. R. Bard, Inc.*, No. CV-16-00853. Docs. 12202, 13329. The final bellwether case, *Tinlin v. C. R. Bard, Inc.*, No. CV-16-00263, settled shortly before trial in May 2019. The Court determined that further bellwether trials were not necessary. Docs. 12853, 13329 (CMOs 38, 40).

1. Booker, No. CV-16-00474.

The first bellwether trial concerned Plaintiff Sherr-Una Booker and involved a Bard G2 filter. The filter had tilted, migrated, and fractured. Plaintiff required open heart surgery to remove the fractured limbs and repair heart damage caused by a percutaneous removal attempt. Plaintiff withdrew her breach of warranty claims before Defendants moved for summary judgment. The Court granted Defendants' motion for summary judgment on the claims for manufacturing defects, failure to recall, misrepresentation, negligence per se, and breach of warranty. Docs. 8873, 8874. The

1 remaining claims for failure to warn, design defect, and punitive damages were tried to a
2 jury over a three-week period in March 2018.

3 The jury found for Plaintiff Booker on her negligent failure-to-warn claim, and in
4 favor of Defendants on the design defect and strict liability failure-to-warn claims.
5 Doc. 10595. The jury returned a verdict of \$2 million in compensatory damages (of
6 which \$1.6 million was attributed to Defendants after apportionment of fault) and \$2
7 million in punitive damages. *Id.*; Doc. 10596. The Court denied Defendants' motions for
8 judgment as a matter of law and a new-trial. Docs. 10879, 11598. Defendants have
9 appealed. Docs. 11934, 11953. Plaintiff filed and later dismissed with prejudice a cross-
10 appeal. Docs. 12070, 17916.

11 **2. Jones, No. CV-16-00782.**

12 The second bellwether trial concerned Plaintiff Doris Jones and involved a Bard
13 Eclipse filter. Plaintiffs withdrew the manufacturing defect, failure to recall, and breach
14 of warranty claims. The Court granted summary judgment on the misrepresentation,
15 negligence per se, and unfair trade practices claims. Doc. 10404. The remaining claims
16 for failure to warn, design defect, and punitive damages were tried to a jury over a three-
17 week period in May 2018. The jury returned a defense verdict. Doc. 11350. Plaintiff
18 filed a motion to contact the jurors, which was denied. Docs. 11663, 12068. Plaintiff's
19 appeal of the court's rulings excluding cephalad migration death evidence is pending.
20 Docs. 12057, 12071.

21 **3. Kruse, No. CV-15-01634.**

22 Plaintiff Carol Kruse's case was set for trial in September 2018. The Court
23 granted Defendants' summary judgment motion on statute of limitations grounds.
24 Doc. 12202.

25 **4. Hyde, No. CV-16-00893.**

26 The third bellwether trial concerned Plaintiff Lisa Hyde and involved either a Bard
27 G2X or Eclipse filter (the exact model was in dispute). Ms. Hyde's case was moved to
28 the September 2018 bellwether slot in lieu of Ms. Kruse's case. Doc. 11867. Plaintiffs

1 withdrew their claims for manufacturing defect and breach of express warranty. The
 2 Court granted summary judgment on the claims for breach of implied warranty, failure to
 3 warn, failure to recall, misrepresentation, concealment, and fraud. Doc. 12007. The
 4 Court also entered judgment in favor of Defendants on the negligence per se claim after
 5 concluding that it was impliedly preempted under 21 U.S.C. § 337(a). Doc. 12589. The
 6 remaining claims for design defect, loss of consortium, and punitive damages were tried
 7 to a jury over three weeks in September 2018. After the close of Plaintiffs' evidence, the
 8 Court granted in part Defendants' motion for judgment as a matter of law with respect to
 9 future damages for any cardiac arrhythmia Ms. Hyde may experience, but denied as to
 10 the remaining claims. Doc. 12805. The jury returned a defense verdict. Doc. 12891.
 11 Plaintiff appealed. Docs. 13465, 13480.

12 **5. *Mulkey*, No. CV-16-00853.**

13 Plaintiff Debra Mulkey's case involved an Eclipse filter and was set for trial in
 14 February 2019. Before trial, Plaintiffs asked the Court to remove the Mulkey case from
 15 the bellwether trial schedule because it was similar to the Jones and Hyde cases and
 16 would not provide meaningful information to the parties. Doc. 12990. The Court
 17 granted the motion. Doc. 13329.

18 **6. *Tinlin*, No. CV-16-00263.**

19 The final bellwether trial concerned Plaintiff Debra Tinlin and involved a Bard
 20 Recovery filter. Plaintiffs withdrew their claims for manufacturing defect, failure to
 21 recall, negligence per se, and breach of warranty. The Court granted summary judgment
 22 on the misrepresentation and deceptive trade practices claims. Doc. 17008. The
 23 remaining claims for failure to warn, design defect, concealment, loss of consortium, and
 24 punitive damages were scheduled for trial in May 2019, but the case settled.

25 **H. Key Legal and Evidentiary Rulings.**

26 The Court has made many rulings in this MDL that could affect the remanded and
 27 transferred cases. The Court provides the following summary of key legal and
 28 evidentiary rulings to assist the courts that receive these cases.

1 **1. Medical Monitoring Class Action Ruling.**

2 In May 2016, Plaintiffs’ counsel filed a medical monitoring class action that was
3 consolidated with the MDL. *See Barraza v. C. R. Bard, Inc.*, No. CV-16-01374. The
4 *Barraza* Plaintiffs moved for class certification for medical monitoring relief on behalf of
5 themselves and classes of individuals who have been implanted with a Bard IVC filter,
6 have not had that filter removed, and have not filed a claim or lawsuit for personal injury
7 related to the filter. *Id.*, Doc. 54. The Court declined to certify the class. *Id.*, Doc. 95.

8 The class certification motion recognized that only 16 states permit claims for
9 medical monitoring. The Court concluded that the classes could not be certified under
10 Rule 23(b)(3) because individual issues would predominate. *Id.* at 20-21. The Court
11 further concluded that the class could not be certified under Rule 23(b)(2) because the
12 medical monitoring relief primarily constituted monetary rather than injunctive relief, and
13 the class claims were not sufficiently cohesive to permit binding class-wide relief. *Id.*
14 at 21-32. Finally, the Court concluded that typicality under Rule 23(a)(3) had not been
15 established. *Id.* at 32-34. The *Barazza* Plaintiffs dismissed their claims without
16 prejudice. Docs. 106, 107. No appeal has been filed.

17 **2. Federal Preemption Ruling.**

18 Defendants moved for summary judgment on the grounds that Plaintiffs’ state law
19 claims are expressly preempted by the Medical Device Amendments of 1976 (“MDA”),
20 21 U.S.C. § 360 et seq., and impliedly preempted by the MDA under the Supreme
21 Court’s conflict preemption principles. Doc. 5396. The Court denied the motion.
22 Doc. 8872. Defendants have appealed this ruling. Docs. 11934, 11953.

23 The MDA curtails state regulation of medical devices through a provision that
24 preempts state requirements that differ from or add to federal requirements. 21 U.S.C.
25 § 360k. The Bard IVC filters at issue in this litigation were cleared for market by the
26 FDA through section “510k” review, which focuses primarily on equivalence rather than
27 safety and effectiveness. *See* § 360c(f)(1)(A).
28

1 The Supreme Court in *Medtronic, Inc. v. Lohr*, 518 U.S. 470 (1996), held that
 2 § 360k does not preempt state law claims directed at medical devices cleared through the
 3 510(k) process because substantial equivalence review places no federal requirements on
 4 a device. *Id.* at 492-94. *Lohr* also noted that the “510(k) process is focused on
 5 *equivalence*, not safety.” *Id.* at 493 (emphasis in original). Although the Safe Medical
 6 Devices Act of 1990 (“SMDA”), Pub. L. 101-629, injected safety and effectiveness
 7 considerations into 510(k) review, it did so only comparatively. The Court found that
 8 *Lohr* remains good law and that clearance of a product under 510(k) generally does not
 9 preempt state common law claims. Doc. 8872 at 12-14.

10 The Court further found that Defendants failed to show that the 510(k) reviews for
 11 Bard IVC filters imposed device-specific requirements as needed for preemption under
 12 § 360k. *Id.* at 14-20. Even if device-specific federal requirements could be ascertained,
 13 Defendants made no showing that any particular state law claim is expressly preempted
 14 by federal requirements. *Id.* at 21-22.

15 The Court concluded that Plaintiffs’ state law claims are not impliedly preempted
 16 because Defendants failed to show that it is impossible to do under federal law what the
 17 state laws require. *Id.* at 22-24. Defendants are pursuing their preemption arguments in
 18 the Booker appeal.

19 **3. The Lehmann Report Privilege and Work Product Rulings.**

20 The Court granted Defendants’ motion for a protective order to prevent Plaintiffs
 21 from using a December 15, 2004 report of Dr. John Lehmann. Doc. 699. Dr. Lehmann
 22 provided various consulting services to Bard at different times. Following Bard’s receipt
 23 of potential product liability claims involving the Recovery filter, Bard’s legal
 24 department retained Dr. Lehmann in November 2004 to provide an assessment of the
 25 risks associated with the Recovery filter and the extent of Bard’s legal exposure.
 26 Dr. Lehmann prepared a written report of his findings at the request of the legal
 27 department and in anticipation of litigation. The Court found the report to be protected
 28 from disclosure by the work product doctrine. *Id.* at 4-12. The Court further found that

1 Plaintiffs had not shown a substantial need for the report or undue hardship if the report
 2 was not disclosed. *Id.* at 13-15. The Court agreed with the parties that this ruling does
 3 not alter any prior rulings by transferor judges in specific cases. *Id.* at 22.

4 **4. *Daubert* Rulings.**

5 The Court has ruled on the parties' *Daubert* motions and refers the transferor
 6 courts to the following orders:

| <i>Daubert</i> Order | Doc. Nos. |
|--|------------------|
| Plaintiffs' Expert Dr. Thomas Kinney | 9428, 10323 |
| Plaintiffs' Experts Drs. Scott Resnick, Robert Vogelzang, Kush Desai, and Robert Lewandowski | 9432 |
| Plaintiffs' Experts Drs. David Kessler and Suzanne Parisian | 9433 |
| Plaintiffs' Experts Drs. Thomas Kinney, Anne Christine Roberts, and Sanjeeva Kalva | 9434 |
| Plaintiffs' Expert Dr. Mark Eisenberg | 9770 |
| Plaintiffs' Expert Dr. Derek Muehrcke | 9771 |
| Plaintiffs' Expert Dr. Darren Hurst | 9772 |
| Plaintiffs' Expert Dr. Rebecca Betensky | 9773 |
| Defendants' Expert Dr. Clement Grassi | 9991, 10230 |
| Plaintiffs' Expert Dr. Robert McMeeking | 10051, 16992 |
| Plaintiffs' Expert Dr. Robert Ritchie | 10052 |

| | |
|---|------------------------|
| Plaintiffs' Experts Drs. David Garcia and Michael Streiff | 10072 |
| Defendants' Expert Dr. Christopher Morris | 10230, 10231, 17285 |

5. Motion in Limine Rulings.

a. FDA Evidence (*Cisson Motion*).

In the Booker bellwether trial, Plaintiffs sought to exclude, under Federal Rules of Evidence 402 and 403, evidence of the FDA's 510(k) clearance of Bard IVC filters and the lack of FDA enforcement action against Bard. Doc. 9529. The Court denied the motion. Docs. 9881, 10323.

The Court found that under Georgia law, which applied in both the Booker and Jones bellwether cases, compliance with federal regulations may not render a manufacturer's design choice immune from liability, but evidence of Bard's compliance with the 510(k) process was nonetheless relevant to the design defect and punitive damages claims. Doc. 9881 at 3-4. The Court acknowledged concerns that FDA evidence might mislead the jury or result in a mini-trial. *Id.* at 5-6 (citing *In re C.R. Bard, Inc., Pelvic Repair Sys. Prods. Liab. Litig. (Cisson)*, No. 2:10-CV-01224, 2013 WL 3282926, at *2 (S.D.W. Va. June 27, 2013)). But the Court concluded that such concerns could adequately be addressed by efficient management of the evidence and adherence to the Court's time limits for trial, and, if necessary, by a limiting instruction regarding the nature of the 510(k) process. *Id.* at 6-7.⁵

The Court noted that the absence of any evidence regarding the 510(k) process would run the risk of confusing the jury, as many of the relevant events in this litigation occurred in the context of the FDA's 510(k) review and are best understood in that

⁵ The Court did not find a limiting instruction necessary at the close of either the Booker or Jones trials. *See* Doc. 10694 at 9.

1 context. Doc. 9881 at 7. Nor was the Court convinced that all FDA references could
2 adequately be removed from the evidence. *Id.*

3 The Court further concluded that it would not exclude evidence and arguments by
4 Defendants that the FDA took no enforcement action against Bard with respect to the G2
5 or Eclipse filters, or evidence regarding information Bard provided to the FDA in
6 connection with the 510(k) process. Docs. 10323 at 2-3 (Booker), 11011 at 4-5 (Jones).
7 The Court found that the evidence was relevant to the negligent design and punitive
8 damages claims under Georgia law. *Id.* The Court determined at trial that it had no basis
9 to conclude that the FDA's lack of enforcement was intended by the FDA as an assertion,
10 and therefore declined to exclude the evidence as hearsay. Doc. 10568 at 87.

11 **b. FDA Warning Letter.**

12 Defendants moved to exclude evidence of the July 13, 2015 FDA warning letter
13 issued to Bard. Doc. 9864 at 2-3. The Court granted the motion in part, excluding as
14 irrelevant topics 1, 2, 4(a), 4(b), 5, 6, 7, and 8 of the warning letter. Docs. 10258 at 6-8
15 (Booker), 10805 at 1 (Jones), 12736 (Hyde), 17401 at 10 (Tinlin). Topics 1 and 2
16 concern the Recovery Cone retrieval system; Topic 4(a) concerns the filter cleaning
17 process; and Topics 4(b), 5, 6, 7, and 8 concern the Denali Filter. The Court concluded
18 that none of these topics was relevant to the issues in the bellwether cases involving a G2
19 filter (Booker), an Eclipse filter (Jones), either a G2X or Eclipse filter (Hyde), and a
20 Recovery filter (Tinlin). *Id.*

21 The Court deferred ruling on the relevance of topic 3 until trial in all bellwether
22 cases. The Court found that topic 3, concerning Bard's complaint handling and reporting
23 of adverse events with respect to the G2 and Eclipse filters, as well as the adequacy of
24 Bard's evaluation of the root cause of the violations, was relevant to rebut the implication
25 at trial that the FDA took no action with respect to Bard IVC filters. *See* Doc. 10693 at
26 13-15; Doc. 11256. The Court concluded that the warning letter was admissible under
27 Federal Rule of Evidence 803(8), and was not barred as hearsay. Doc. 10258 at 7. The
28 Court further concluded that the probative value of topic 3 was not substantially

1 outweighed by the danger of unfair prejudice to Bard under Rule 403. *Id.* The Court
 2 admitted the warning letter in redacted form during the three bellwether trials. *See*
 3 Docs. 10565, 11256, 12736. The Court noted that topic 3 included reference to the G2,
 4 the filter at issue in Booker, and reached similar conclusions in Jones and Hyde.
 5 Doc. 17401 at 11. The parties disputed the relevance of topic 3 in Tinlin because it did
 6 not include reference to the Recovery, the filter at issue in Tinlin. *Id.* The Court did not
 7 decide this issue because the Tinlin case settled.

8 **c. Recovery Cephalad Migration Death Evidence.**

9 Defendants moved to exclude evidence of cephalad migration (i.e., migration of
 10 the filter toward the patient's heart) by a Recovery filter resulting in patient death. The
 11 Court denied the motion for the Booker bellwether trial, which involved a G2 filter.
 12 Docs. 10258 at 4-5, 10323 at 4. Defendants have appealed this ruling. Docs. 11934,
 13 11953.

14 The Court granted the motion for the Jones bellwether trial, which involved an
 15 Eclipse filter, and denied Plaintiff's requests for reconsideration of the ruling before and
 16 during the trial. *See* Docs. 10819, 10920, 11041, 11113, 11256, 11302; *see also*
 17 Doc. 11409 at 94-96. Plaintiff Jones has appealed those rulings. Docs. 12057, 12071.

18 The Court granted the motion for the Hyde bellwether trial, which involved either
 19 a G2X or Eclipse filter. Doc. 12533 at 6-7. Plaintiff Hyde has appealed this ruling.
 20 Docs. 13465, 13480.

21 The Court denied Defendants' motion for the Tinlin bellwether trial, which
 22 involved a Recovery filter. Doc. 17401 at 7-10. The Tinlin case settled before trial.

23 The Court concluded for purposes of the Booker bellwether trial that evidence of
 24 cephalad migrations by a Recovery filter resulting in patient death was necessary for the
 25 jury to understand the issues that prompted creation and design of the next-generation G2
 26 filter, and thus was relevant to Plaintiff's design defect claims. Doc. 10323 at 4. In
 27 addition, because the Recovery filter was the predicate device for the G2 filter in
 28 Defendants' 510(k) submission to the FDA, and Defendants asserted to the FDA that the

1 G2 was as safe and effective as the Recovery, the Court concluded that the safety and
2 effectiveness of the Recovery filter was at issue. *Id.* The Court was concerned, however,
3 that too heavy an emphasis on deaths caused by cephalad migration of the Recovery
4 filter – a kind of migration which did not occur in the G2 filter generally or the Booker
5 case specifically – would result in unfair prejudice to Defendants that substantially
6 outweighed the probative value of the evidence. *Id.* Defendants did not object during
7 trial that Plaintiffs were over-emphasizing the death evidence.

8 The Court initially concluded for purposes of the Jones bellwether trial, which
9 involved an Eclipse filter, that evidence of cephalad migration deaths by the Recovery
10 filter was inadmissible because it was only marginally relevant to Plaintiff's claims and
11 its marginal relevancy was substantially outweighed by the risk of unfair prejudice. *See*
12 Docs. 10819, 10920, 11041, 11113, 11256, 11302. This is because cephalad migration
13 did not continue in any significant degree beyond the Recovery; cephalad migration
14 deaths all occurred before the Recovery was taken off the market in late 2005; Ms. Jones
15 did not receive her Eclipse filter until 2010; the Recovery-related deaths said nothing
16 about three of Ms. Jones' four claims (strict liability design defect and the failure to warn
17 claims); and instances of cephalad migration deaths were not substantially similar to
18 complications experienced by Ms. Jones and therefore did not meet the Georgia standard
19 for evidence on punitive damages. Docs. 10819, 11041.

20 The Court also found that deaths caused by a non-predicate device (the Recovery
21 was not the predicate device for the Eclipse in Defendants' 510(k) submission), and by a
22 form of migration that was eliminated years earlier, were of sufficiently limited probative
23 value that their relevancy was substantially outweighed by the danger of unfair prejudice
24 because the death evidence may prompt a jury decision based on emotion. *Id.* The Court
25 further concluded that Plaintiff Jones would not be seriously hampered in her ability to
26 prove Recovery filter complications, testing, and design when references to cephalad
27 migration deaths are removed. Doc. 11041. As a result, the Court held that such
28 references should be redacted from evidence presented during the Jones trial.

1 The Court balanced this concern with the competing concern that it would be
2 unfair for Defendants to present statistics about the Recovery filter and not allow
3 Plaintiffs to present competing evidence that included Recovery deaths. *See, e.g.*,
4 Doc. 11391 at 12. Based on this concern, Plaintiffs argued at various points during the
5 trial that Defendants had opened the door to presenting evidence about Recovery
6 cephalad migration deaths. The Court repeatedly made fact-specific determinations on
7 this point, holding that even though Defendants presented some evidence that made the
8 Recovery evidence more relevant, the danger of unfair prejudice continued to
9 substantially outweigh the probative value of the cephalad migration death evidence. *See*
10 Docs. 11113, 11302; *see also* Doc. 11409 at 94-96.

11 The Court concluded for purposes of the Hyde bellwether trial, which involved
12 either a G2X or Eclipse filter, that evidence of Recovery filter cephalad migration deaths
13 should be excluded under Rule 403 for the reasons identified in the Jones bellwether trial.
14 Doc. 12533 at 6-7. The Court concluded that this evidence had marginal relevance to
15 Plaintiff's claims because Ms. Hyde received either a G2X or Eclipse filter, two or three
16 generations after the Recovery filter; Ms. Hyde did not receive her filter until 2011, more
17 than five years after cephalad migration deaths stopped when the Recovery was taken off
18 the market; the deaths did not show that G2X or Eclipse filters – which did not cause
19 cephalad migration deaths – had design defects when they left Defendants' control; nor
20 did the cephalad migration deaths, which were eliminated by design changes in the G2,
21 shed light on Defendants' state of mind when designing and marketing the G2X and
22 Eclipse filters. *Id.* at 7.

23 The Court concluded for purposes of the Tinlin bellwether trial, which involved a
24 Recovery filter, that Recovery deaths and Defendants' knowledge of those deaths were
25 relevant to Plaintiffs' design defect claim under Wisconsin law because they went
26 directly to the Recovery's foreseeable risks of harm and whether it was unreasonably
27 dangerous. Doc. 17401 at 7-8. The Court also concluded that the Recovery death
28 evidence was relevant to Plaintiffs' failure to warn and concealment claims because it

1 was probative on the causation issue – that is, whether her treating physician would have
 2 selected a different filter for Ms. Tinlin had he been warned about the Recovery’s true
 3 risks, as Plaintiffs describe them. *Id.* at 8. In addition, because this evidence would be
 4 used to impeach expert testimony from Defendants that the Recovery filter was safe and
 5 effective, the Court concluded that substantial similarity was not required. *Id.* at 8-9.
 6 The Court further concluded that the death evidence was relevant to Bard’s state of mind
 7 and to show the reprehensibility of its conduct for purposes of punitive damages. *Id.*
 8 at 9-10. The Court reached a different conclusion in Jones and Hyde because cephalad
 9 migration deaths stopped when the Recovery was taken off the market in 2005, and the
 10 deaths shed little light on Defendants’ state of mind when marketing different, improved
 11 filters years later. *Id.* at 9 n.4. As noted, the Tinlin case settled before trial.

12 **d. SNF Evidence.**

13 Plaintiffs sought to exclude evidence of complications associated with the SNF,
 14 claiming that they were barred from conducting relevant discovery into the design and
 15 testing of the SNF under CMO 10. Doc. 10487; *see* Doc. 1319. The Court denied
 16 Plaintiffs’ request. Doc. 10489. The Court did not agree that Plaintiffs were foreclosed
 17 from obtaining relevant evidence for rebuttal. The Court foreclosed this discovery
 18 because Plaintiffs did not contend that the SNF was defective. *Id.* at 2. Plaintiffs also
 19 had rebuttal evidence showing that reported failure rates for SNF were lower than
 20 Recovery and G2 failure rates. *Id.* The Court ultimately concluded it would not preclude
 21 Defendants from presenting its SNF evidence on the basis of a discovery ruling and
 22 permitted Plaintiffs to make appropriate evidentiary objections at trial. *Id.* at 3.

23 **e. Use of Testimony of Withdrawn Experts.**

24 Defendants sought to preclude Plaintiffs’ use at trial of the depositions of three
 25 defense experts, Drs. Moritz, Rogers, and Stein, who originally were retained by Bard but
 26 were later withdrawn in some or all cases. Doc. 10255 at 2. The Court denied the
 27 request in part. Doc. 10382. The Court found that Defendants failed to show that the
 28 depositions of these experts were inadmissible on hearsay grounds, but agreed that it

would be unfairly prejudicial under Rule 403 to disclose to the jury that the experts originally were retained by Bard. *Id.* at 2-3. The Court therefore concluded that Plaintiffs could use portions of the experts' depositions that support Plaintiffs' claims, but could not disclose to the jury that the experts originally were retained by Bard. *Id.* at 3. The Court was concerned about the presentation of cumulative evidence, and therefore required Plaintiffs to show that no other expert of similar qualifications was available or that the unavailable expert had some unique testimony to contribute, before the deposition of any withdrawn expert could be used at trial. *Id.* at 3-4.

f. Other Motion in Limine Rulings.

Other motion in limine ("MIL") rulings may be useful in other jurisdictions. *See* Docs. 10075, 10235, 10258, 10947. The Court refers the receiving courts to the following motions and orders to assist in preparing for trial:⁶

- **Parties' Joint Stipulation on MILs in Booker:** The Court, on stipulation of the parties, excluded evidence concerning several case-specific issues in the Booker bellwether trial, as well as a few general issues, including: Bard's 1994 criminal conviction; other lawsuits or claims against Bard; advertising by Plaintiff's counsel; Plaintiff's counsel specializing in personal injury or products liability litigation; contingency fee agreements; and advertising by any counsel nationally for IVC filter cases. Doc. 10235.
- **Defendants MIL 1 in Booker:** The Court permitted evidence and testimony concerning Recovery complications. Doc. 10258 at 1-5; *see* Doc. 10819 (Jones). As noted above, the Court permitted evidence and testimony concerning Recovery filter cephalad migration deaths in the Booker bellwether trial involving a G2 filter (Doc. 10323 at 4), but excluded such evidence in the trials involving a G2X or Eclipse filter (Docs. 10819, 10920, 11041).
- **Defendants' MIL 2 in Booker:** The Court permitted evidence and testimony relating to the development of the Recovery filter. Doc. 10258 at 5-6; *see* Doc. 10819 at 2-3 (Jones).

⁶ The Court also ruled on the parties' MILs concerning several case-specific issues. *See* Docs. 10075 (Plaintiff's MIL 12 in Booker), 10258 (Plaintiff's MILs 6 and 13 in Booker), 10947 (Defendants' MIL 1 and Plaintiff's MILs 1-4 and 7 in Jones), 12533 (Plaintiff's MIL 3 in Hyde), 17285 (Plaintiff's MIL 1 in Tinlin), 17401 (Plaintiff's MILs 2, 3, and 6 in Tinlin).

- 1 • **Defendants' MIL 4 in Booker:** The Court excluded evidence and testimony
2 concerning a photograph of Bard employee Michael Randall making an
3 offensive gesture to a camera. Doc. 10075 at 1-2.
- 4 • **Defendants' MIL 5 in Booker:** The Court permitted Plaintiff's expert
5 Dr. Thomas Kinney to be called as a fact witness, but prohibited him from
6 testifying regarding his prior work for Bard as an expert witness in two prior
7 IVC filter cases or as a paid consultant to Bard. Docs. 10075 at 2-3, 10323
8 at 4.
- 9 • **Plaintiff's MIL 2 in Booker:** The Court reserved ruling until trial on evidence
10 and testimony regarding the nature of Bard's business, including the nature,
11 quality, and usefulness of its products, the conscientiousness of its employees,
12 and references to its mission statement. Doc. 10075 at 3-4.
- 13 • **Plaintiff's MIL 3 in Booker:** The Court permitted evidence and testimony
14 concerning the benefits of IVC filters, including testimony describing Bard
15 filters as "lifesaving" devices. Doc. 10258 at 8.
- 16 • **Plaintiff's MIL 4 in Booker:** The Court permitted evidence and testimony
17 that IVC filters, including Bard's filters, are within the standard of care for the
18 medical treatment of pulmonary embolism. Doc. 10258 at 8-9. Defendants
19 agreed to not characterize IVC filters as the "gold standard" for the treatment
20 of pulmonary embolisms. *Id.* at 8.
- 21 • **Plaintiff's MIL 5 in Booker:** The Court denied as moot the motion to exclude
22 evidence and argument relating to failure rates, complication rates,
23 percentages, or comparative analysis of any injuries that were not produced to
24 Plaintiffs during discovery, as all such information was produced. Doc. 10075
25 at 4.
- 26 • **Plaintiff's MIL 7 in Booker:** The Court excluded evidence and argument
27 relating to prior judicial opinions about Plaintiffs' experts, including the
28 number of times their testimony has been precluded in other cases. *Id.*
- **Plaintiff's MIL 8 in Booker:** The Court excluded evidence and argument that
a verdict against Defendants will have an adverse impact on the medical
community, future medical device research or costs, and the availability of
medical care. *Id.* at 4-5.
- **Plaintiff's MIL 9 in Booker:** The Court deferred ruling on the relevance of
statements or lack of statements from medical societies, including the Society
of Interventional Radiologists ("SIR"), until trial. Doc. 10258 at 14-18. The
Court ultimately admitted this evidence in both the Booker and Jones
bellwether trials.
- **Plaintiff's MIL 10 in Booker:** The Court excluded evidence and testimony
that Bard needed FDA consent to add warnings to its labels, send warning
letters to physicians and patients, or recall its filters. *Id.* at 18-19. The Court
permitted evidence and argument explaining the reasons why Bard filters were
not recalled, FDA's potential involvement in any recall effort, and the fact that
warnings about failure rates and increased risks could not be based on MDR
and MAUDE data alone. *Id.*

- 1 • **Plaintiff's MIL 11 in Booker:** The Court permitted evidence and argument
2 relating to the informed consent form signed by Plaintiff prior to insertion of
3 the IVC filter, even though the form is not specific to IVC filters or Bard
4 filters. Doc. 10075 at 5-6.
- 5 • **Plaintiff's MIL 14 in Booker:** The Court reserved ruling until trial on
6 evidence and argument relating to background information and personal traits
7 of Bard employees and witnesses. *Id.* at 7.
- 8 • **Plaintiff's MIL 6 in Jones:** The Court permitted evidence and testimony
9 concerning whether a party's expert had been retained by the same attorneys in
10 other litigation. Doc. 10947 at 8-9.
- 11 • **Plaintiff's MIL 5 in Jones:** The Court excluded evidence and testimony that
12 Bard employees or their relatives have received Bard IVC filter implants. *Id.*
13 at 9-10.
- 14 • **Defendants' MIL 2 in Jones:** The Court excluded evidence and testimony of
15 other lawsuits against Bard. *Id.* at 11.
- 16 • **Plaintiff's MILs 4 and 5 in Hyde:** The Court permitted evidence and
17 testimony concerning Bard's Instructions for Use ("IFU") and SIR Guidelines.
18 Doc. 12507.
- 19 • **Plaintiff's MIL 2 in Hyde:** The Court permitted evidence and testimony
20 concerning "The Surgeon General's Call to Action to Prevent Deep Vein
21 Thrombosis and Pulmonary Embolism." Doc. 12533 at 4-6.
- 22 • **Defendants' MIL 3 in Hyde:** The Court permitted evidence and testimony
23 that Bard's SNF is a reasonable alternative design. *Id.* at 7.
- 24 • **Defendants' MIL 4 in Hyde:** The Court excluded testimony from Dr.
25 Muehrcke about his personal feelings of betrayal and his moral and ethical
26 issues with Bard's conduct. *Id.* at 7-8.
- 27 • **Defendants' MIL 6 in Hyde:** The Court permitted evidence and testimony
28 regarding informed consent. *Id.* at 8-9.
- **Plaintiff's MIL 4 in Tinlin:** The Court reserved ruling until trial on evidence
and argument relating to a chart created by Defendants from their internal
TrackWise database regarding reporting rates of IVC filter complications.
Doc. 17401 at 5.
- **Plaintiff's MIL 5 in Tinlin:** The Court permitted evidence and testimony
concerning a chart comparing the sales of the permanent SNF with those of
retrievable filters between 2002 and 2016. *Id.* at 5-6.
- **Defendants' MIL 3 in Tinlin:** The Court permitted evidence and testimony
concerning the Recovery Filter Crisis Communications Plan that Bard had
prepared in 2004 to help manage damaging media coverage about a Recovery
migration death. *Id.* at 11-12.
- **Defendants' MIL 4 in Tinlin:** The Court excluded evidence and testimony
concerning Dr. Muehrcke's untimely disclosed opinion that one of his patients

died from cardiac tamponade caused by a fractured strut that had embolized to her heart. *Id.* at 12-13.

6. Deposition Designation Rulings.

The Court has ruled on numerous objections to deposition designations for trial and refers the transferor courts to the following orders:⁷

| Deponent | Depo. Date | Doc. No(s). |
|-------------------|--------------------------|-----------------|
| Bill Altonaga | 10/22/2013 | 10497, 10922 |
| Christine Brauer | 05/23/2014 08/02/2017 | 10922, 10922 |
| David Ciavarella | 11/12/2013 | 10403 |
| Gary Cohen | 01/25/2017 | 10438 |
| Robert Cortelezzi | 11/11/2016 | 10438, 11064 |
| Len DeCant | 05/24/2016 | 10438, 11080 |
| John DeFord | 06/02/2016 | 10524, 11080 |
| Mary Edwards | 01/20/2014 | 10438 |
| Robert Ferrara | 04/17/2017 | 10438 |
| Chris Ganser | 10/11/2016 | 10438, 11073 |
| Jason Greer | 08/11/2014 | 10438, 10922 |
| Janet Hudnall | 11/01/2013 | 10403 |
| Brian Hudson | 01/17/2014 | 10403 |
| John Lehmann | 08/07/2014 | 10922 |

⁷ In addition to the depositions identified in the table above, the Court ruled on numerous objections to case-specific deposition designations for trial.

| Deponent | Depo. Date | Doc. No(s). |
|----------------------|--------------------------|--------------------|
| William Little | 07/27/2016 | 10438, 11064 |
| John McDermott | 02/05/2014 | 10438 |
| Patrick McDonald | 07/29/2016 | 10486, 11064 |
| Mark Moritz | 07/18/2017 | 10922 |
| Daniel Orms | 08/16/2016 | 10403, 11073 |
| Abithal Raji-Kubba | 07/18/2016 | 11064 |
| Gin Schulz | 01/30/2014 | 10403 |
| Christopher Smith | 08/03/2017 | 11073 |
| William Stavropoulos | 02/01/2017 | 10524 |
| Jack Sullivan | 11/03/2016 09/16/2016 | 10486, 11080 |
| Melanie Sussman | 04/07/2017 | 11073 |
| Mehdi Syed | 03/02/2018 | 11313 |
| Scott Trerotola | 01/20/2017 | 10524 |
| Douglas Uelmen | 10/04/2013 | 10403, 11080 |
| Carol Vierling | 05/11/2016 | 10486, 11073 |
| Mark Wilson | 01/31/2017 | 10922 |
| Natalie Wong | 10/18/2016 | 10403 |

I. Further Proceedings in Remanded or Transferred Cases.

1. General Discovery.

Because all general fact and expert discovery has been completed in this MDL, the courts receiving these cases need not be concerned with facilitating general expert,

1 corporate, and third-party discovery. This observation is not meant to restrict the power
 2 of transferor courts for good cause or in the interest of justice to address issues that may
 3 be unique and relevant in remanded or transferred cases.

4 **2. Case-Specific Discovery and Trial Preparation.**

5 According to the parties, the status of the remaining discovery and other pretrial
 6 issues for the cases being remanded or transferred, and the estimated time needed to
 7 resolve such issues and make the cases ready for trial, will be determined on remand or
 8 transfer. Final trial preparation in the bellwether trials was governed by certain Court
 9 orders. *See* Docs. 8871, 10323, 10587, 11011, 11320, 11321, 11659, 11871, 12061,
 10 12853, 12971.

11 **J. Documents to Be Sent to Transferor Courts.**

12 If the Panel agrees with the Court's suggestion of remand of the cases listed on
 13 Schedule A and issues a final remand order ("FRO"), the Clerk of the Court for this
 14 District will issue a letter to the transferor courts, via email, setting out the process for
 15 transferring the individual cases listed in the FRO. The letter and certified copy of the
 16 FRO will be sent to each transferor court's email address.

17 The parties have submitted a stipulated designation of record for remanded cases.
 18 Doc. 19444-1; *see* J.P.M.L Rule 10.4(a). Upon receipt of the FRO, the Clerk of this
 19 District shall transmit to the respective transferor courts the following concerning each
 20 remanded action: (1) a copy of the individual docket sheet for each action remanded,
 21 (2) a copy of the master docket sheet in this MDL, (3) the entire file for each action
 22 remanded, as originally received from the transferor district, and (4) the record on
 23 remand designated by the parties. *See* Doc. 19444-1; J.P.M.L Rule 10.4(b).

24 The Court has concluded that the cases listed on Schedule B should be transferred
 25 to appropriate districts pursuant to 28 U.S.C. § 1404(a). Upon receipt of this transfer
 26 order, the Clerk for this District shall follow the same procedures prescribed above for
 27 each of the individual cases listed on Schedule B.

1 If a party believes that the docket sheet for a particular case being remanded or
2 transferred is not correct, a party to that case may, with notice to all other parties in the
3 case, file with the receiving court a designation amending the record. Upon receiving
4 such designation, the receiving court may make any needed changes to the docket. If the
5 docket is revised to include additional documents, the parties should provide those
6 documents to the receiving court.

7 **IV. Conclusion.**

8 Pursuant to J.P.M.L. Rule 10.1(b)(i), the Court suggests that the Panel remand the
9 cases listed on Schedule A to their transferor districts for further proceedings. The Clerk
10 shall forward a certified copy of this order to the Panel.

11 Pursuant to 28 U.S.C. § 1404(a), the Clerk of this District is directed to transfer
12 the cases listed on Schedule B to appropriate districts for further proceedings.

13 **IT IS SO ORDERED.**

14 Dated this 19th day of August, 2019.
